

## **FMEA and Control Plan**

**COURSE OBJECTIVE:** The purpose of this course is to create awareness of FMEA and control plan. As per the requirement, Design and PFMEA are covered. This will help the organization to implement **a proactive approach to avoid failure mode or to have proper controls to prevent defects reaching to customer**. This course will additionally help them to extract proper work instructions and mistake proofing measures.

**We also undertake consultancy project on Implementation of FMEA**

**HOW OUR COURSE IS DIFFERENT:** Through this course people would find FMEA very simple and effective.

Before that they would have never tasted the feeling of **Simplicity**

**PREREQUISITE REQUIREMENT:** None
